

Mappt[™]
Mapping Better

DATA COLLECTION

Easy, offline and mobile,
capture your geospatial data with one agile device

WMS/WFS SUPPORT

Load data from OGC compliant web services directly into Mappt[™] for up to date, accurate data

DROP DOWN FORMS

Minimize attribute data entry effort and reduce potential errors via configurable drop down's

GPS TRACKING

Offline GPS tracking in Mappt[™] makes real time location collection a breeze!

POINTS, LINES & POLYGONS

Capture asset location and use thematic classification options to display your data

COMPACT & MOBILE

Use Mappt[™] on any Android Tablet device (Android 4.1 Jelly Bean or above)

IMPORTING & EXPORTING

A vast array of exporting options including email and numerous cloud based storage apps

With Mappt[™] there is no vendor lock in, so it works with all major GIS applications

TESTIMONIAL

"Mappt is a great application for gathering geospatial data. It's extremely user friendly and we received helpful and prompt assistance with any questions we had. I have trialled half a dozen other promising programs, and this was definitely a standout from the crowd."
