Mappt™
Mapping Better

NGOs

Harness the power of geospatial technology with our easy to use GIS

GEOTAGGED PHOTOS
Designed for flagging hazards or findings that you want to return to easily in the future

DROP DOWN FORMS
Create forms listing the attributes you want to record to reduce repetitive typing and errors

EASY FEATURES
Mappt™'s user friendly interface and easy to use tools make it perfect for those new to GIS

IMPORTING & EXPORTING
When back online, simply send data via email, Google Drive and other cloud based storage

GPS TRACKING
Mappt™'s offline GPS tracking is essential for recording and measuring your journey

THEMATIC MAPPING
Classify various sites by status or assay results by colour and symbol style

With Mappt™ there is no vendor lock in, so it works with all major GIS applications

TESTIMONIAL

"I've used Mappt for over two years as I've found it to be the easiest to use of all mobile mapping solutions, it's very affordable, and it provides different levels of functionality depending on your requirement and budget."
